Conference Call Etiquette:

- Please keep your phone on "mute" when not directly contributing to the discussion.
- If you must temporarily leave the call for a very short period of time, just leave your mute button on and come back as soon as possible.

- Check to see if your phone system has music or radio playing for customers on "hold". If so, do not use the "hold" button if you must leave the conference call momentarily. The music will play into the conference call.
- If you must leave the call early, just hang up without interrupting the conversation.
- Use appropriate equipment. If possible, always use a phone with a handset that is hard-wired into the phone lines
- Introduce yourself when you begin speaking - Others may not know your voice!
